When confronting the environmental crisis, in which unbridled production of goods is threatening the diversity of the natural world, it's essential that we take an interest in how things are displayed, commercialized and consumed, whether in brick-and-mortar store windows or online.

Organized by VOX in Montreal, this youth exhibition is specially designed for kids and teenagers aged 6 to 14. *Tropicana* casts a critical eye on modern consumer society and advertising aimed at children, which often features animals, colours, sounds and shapes designed to appeal to

them.

Opening on July 8 to the Art Gallery of Mississauga. Register for the opening now by clicking the button below! All ages are welcome!
